Whereas, Such facilities and services could not be provided without the dedicated efforts of public works professionals, engineers, managers, employees from the City and the private sector, who are responsible for emergency response and must plan, design, build, operate and maintain our transportation, water supply, wastewater treatment, solid waste systems and other structures and facilities essential to the businesses and citizens of Keene; and

Whereas, It is in the public interest of the citizens, civic leaders, and children in the United States of America to gain knowledge of, maintain an interest in, and understand the importance of public works and public works programs in their respective communities; and
